Great Democratic Hally Last Night-A Bogus Democratic Ticket Being Circulated-Great Enthusiasm.

Correspondence of THE HURAND.

PARK CITY, Nov. 7,-The election is close Within thirty-six hours the country at large will know the result and throughout Utah the people will be apprised of either Rawlins' or Cannon's election. Politics here is at fever heat and the three parties are making strenuous efferts to poll a big vote for their respective tickets.

The Democratic party although but organised about three weeks, is making great headway and they have a club membership of over 300. They are all in earnest and are in the party to stay. With a Liberal majority of 850 against them in this precinct it is hardly to be expected that they can in one campaign overcome this, but with the vote of the outside precincis they have reason to expect that they will elect the greatur part if not the whole of their county ticket. The Liberals are worsing harder than ever they did before and are canouraging their supporters with the assertion that the the feath and of the deep distress they are in at precent, may be clued the fact that they have had been at liberal Tickets' with the names of all Republican candinates on toom. The Democratic and Liberal massangers have land comes tickets circulated, headed "Democratic and Liberal Tickets' with the names of all Republican candinates on toom. The Democratic and Liberal massangers have landed aggers notifying voters of the schome and are taking every precualion to prevent a circulation of the begus tickets.

The Tellume correspondent has been The Tellume to Tellume to Tellume Tell be apprised of either Rawlins' or Cannon's election. Politics here is at fever heat and

In the procession were several handsome banners, the work of our local artist, Mr. J. A. Lears. One of them was most artistically executed and represented three roses—the Democratic rose was in full bloom, the Republican rose was just busining and the Liberal rose was completely witted. The procession started from headquarters and moved up Main street to Seventh street, down Park avenue to First street and up Main serent to the opera house. Arriving at the opera house, the procession was dismissed. On entering the opera house that capacious building was found to be filled to everflowing, and the Democratic managers were not compelled to wend to Sait Lake for people to make a presentable appearance.

The meeting was called to order by Mr. M. B. Bransford and Mr. R. C. Chambers was made chairman.

Since writing the above information was received at Democratic beadquarters that another bogus ticket was in circulation. It is headed "Democratic Ticket," and has the names of neveral of the Democratic candidates, with a sprinkling of a few Liocard on it. The Liberals must be greatly despondent when they resort to such fraudulent means and low trickery to achieve success. It is a measure that abould be republished by our citizens, and the vote to morrow will show that such actions will receive the punishment they justly deserve.

RALLY AT PROVO.

Campaign-More Dir y Work by Republicans.

Every man, woman and child in Provo who was able to be upon the streets was out yesterday to show their political colors and assist in the last blow-out preceding the election.

Democrats, Republicans and Liberals are as wied with one another to see who could appear the most imposing, but it soon appoared plain that Democracy was in the bedges and voters made the opposition observably despondent, although the Republicans, who had made great preparations, licans, who had made great effort to L. MURELY A REPRESE

Enarly in the day the Enquirer made an effort to start a beomerang by circulating a letter written by George Q. Cannon in reference to the SNO.000 which were alleged to have been bargained away by the Republicans to secure Mr. Cannon's influence toward their success in Utah; but the same circular centained Mr. Rawline' answer, stating what was said in his speech in Prove and his reason for saying it, and that little rephyr soon passed by.

It was about 7 o'clock when a great outpouring of Bemocrats assembled at their
bendquarters to indulge in a raily and liston

£. A. Wilson was the first to mount the
stump, and he unmercifully wated into the
opposition and proved to the assembly that
the only hope for Utah and our great nation is in Democracy.

speeches he ever made in his life, and made

Next came the old Democratic war horse, M. M. Kellogs, who can take more sound Democratic doctrine to the square inch than any man in Prove when he gets his blood stirred up, and last evening it stirred, to the extreme delight of the enthusiantic listeners, who gave him an ovation.

Adel D. Johnson, an aged crater from the north counties, next told of some of the vile methods of Republicans which had been the means of raising the indignation of the entire sation and which could never he remedied unless the country goes over to the Democrate which it surely will after to the Democrate which it surely will after

to the Democrats which thereby was a perfect pendemonium and hundreds of voices were shouting the name of Rawlins, wolle now and then Caunen's name was faintly heard. Thousands of rockets went up, tigwams were bureed down, and red fire lighted the streets for miles around. Two bands and two dram corps filled the air with music and shotgans and hombs went off all the evening.

The Tablume correspondent has been making wild guesses as to the amount paid the Democratic manager for his services in this campaign and seems to be considerably worried that so many have left the Liberal party, yet at the same time coutradicts himself by saying that Mr. Conon's descrition will have no effect whatever on the Liberal vote. It is a difficult matter to determine what are his politics, for he has distinctly stated in words more simplants to vote the Liberal tokes straight. We can only term him a mengral."

His influence is not very widely felt, and his insignificance can only be compared to that or a gnat upon a camel's back.

In the procession were several handsome banners, the work of our focal artist, Mr. A. Lears. One of them was most ar-

The meeting closed with found cheers for Rawlins and the Democratic tiokst, and thus ended the ground which caved in on them, almost prancist political display and the most enthusiastic meeting ever held in Park City.

The Encyclopedia Britannica was begun in 1791, just a entury ago, and its first edition comprised three volumes Since then at various times other editions have been brought out, each better and larger than the preceding one, until about four years ago, when the ninth and last edition was published. Valuable and exeaustive as this magnificent work was it proved to be too voluminous and cumbersome. Too much time had to be consumed in wading through numberless TINNERS, pages of superfluous matter to arrive at a satisfactory answer ta a single simple query. How many, many times would its most ardent admirers, while thus engaged, exclaim: "Life is too short. Thus, from the very necessities of the case, the
